

OHA SECTION 8 HOMEOWNERSHIP PROGRAM

Oakland Housing
Authority

What is the Section 8 Homeownership Voucher Program?

The Section 8 Homeownership Voucher Program is offered to eligible Oakland Housing

Authority (OHA) residents and allows participants to have their housing subsidy applied towards a monthly mortgage payment. Residents who wish to join the program must meet certain requirements which include attending a homeownership orientation and education course. With the assistance of an OHA Homeownership Program Coordinator, participants go through the process of purchasing a home with the help of a realtor and securing financing through a mortgage lender.

Similarities between renting with OHA and Homeownership

- Residents contribute 30% of their income towards either their monthly rent or a mortgage.

Program Requirements

In accordance with OHA's Administrative Plan, the following requirements must be met to move forward with the program.

General:

- Must be a resident in "good standing" with no lease violations or outstanding rent payments and may not have owed a debt to the Oakland Housing Authority within the past five years.
- Must complete required pre-purchase homeownership counseling courses.
- Must be a first-time homebuyer.

Income:

- One or more adult family members purchasing the home must be working full-time (not less than 30 hours per week), consistently for one year. The minimum gross annual income for the family should be equal to the City of Oakland minimum wage multiplied by 2000 hours, based on the income of the adult family members who will own the home. (For example, a family must earn \$28,720 based on the City of Oakland current minimum wage of \$14.36 as of 1/1/2021.)
- The minimum income requirement for elderly (62+) or disabled families (head of household or their spouse) is equal to the current SSI monthly payment for an individual living alone, multiplied by twelve (12). (For example, $\$794 \times 12 = \$9,528$ as of 1/1/2021.)

Savings:

- OHA requires that participating families must contribute their own resources towards the purchase of their home. Working families must contribute a minimum of 3.5% of the purchase price. Disabled and elderly families must contribute a minimum of 1% of the purchase price.

Credit:

- Credit scores of 640 or above for mortgage applicants.

Eligible Homes

Eligible homes are Single Family Residence, Condominium, Townhouse, Mobile Home or Land trust.

- Must be located within Oakland.
- Must be owner occupied.
- Must pass Housing Quality Standards (HQS). The Housing Quality Standards ensure homes meet adequate physical, structural, sanitary, security and safety standards for OHA residents.

Ineligible Homes

Ineligible homes include duplexes, triplexes and other types of multifamily dwellings.

Duration of Mortgage Subsidy

Except in the case of a family that qualifies as an elderly or disabled family according to HUD guidelines, a family shall not receive homeownership assistance for more than:

- 15 years if the initial mortgage has a term for 20 years or longer.

For an elderly and disabled family, the homeownership assistance is for:

- 30 years if resident is elderly (62 years or older) or disabled at the time of purchase.

Planning for Homeownership

First-time homebuyer education and planning are key to making the home-buying process easier and more understandable.

The following **seven steps** are intended to help you, as a future homebuyer better understand and prepare for the home-buying process.

- 1. Maintain good standing with OHA:** Participants must not have any lease violations and must not have any outstanding debt to any Housing Authority.
- 2. Attend a Homebuyer's Education Workshop:** Familiarize yourself with the details of the loan and purchase process by an approved HUD vendor. It's important to know what you are getting into and see if you are ready for homeownership. Having an understanding of what lenders look for and what to expect as a first-time buyer will allow you to be an informed buyer.
- 3. Attend a Budget & Money Management Workshop:** Establish a good foundation of money management for yourself and family. Basic money skills and budgeting are needed for successful homeownership.
- 4. Must meet minimum income requirements:** One or more adult family members purchasing the home must be working full-time (not less than 30 hours per week), consistently for one (1) year. The minimum gross annual income for the family should be equal to the City of Oakland minimum wage multiplied by 2000 hours, based on the income of the adult family members who will own the home. (For example, a family must earn \$28,720 based on the City of Oakland minimum wage of \$14.36 as of 1/1/2021.)

The minimum income requirement for elderly (62+) or disabled families (head of household or their spouse) is equal to the current SSI monthly payment for an individual living alone, multiplied by twelve (12). (For example, $\$794 \times 12 = \$9,528$ as of 1/1/2021.)

5. **Manage Your Credit:** Potential homebuyers must have good credit. A FICO score of 640 or higher is required. You are encouraged to strive for the highest score you can achieve. For at least one (1) year prior to purchasing a home, you should assure that every credit card bill, rent check, car payment and any other debts/bills are paid on time.
6. **Decrease your debts:** Your debt-to-income ratio for the lender's purposes is based on the minimum monthly payment for all of your credit card debt, student loans, car loans and personal loans added together and — compared to your gross monthly income. The lower this ratio, the greater your chance of being approved for a home loan.
7. **Build your savings:** There are countless resources for living within budget and ways to save on everyday expenses. Saving for a home purchase requires discipline to set aside money for the future and manage finances.
Here are some ways to do that:
 - a. Create a special savings account for your home purchase and have part of every paycheck automatically transferred to that account.
 - b. Work extra hours or take on a second job temporarily to increase your income.
 - c. If you get a bonus, a tax refund or a cash gift, deposit it into your home-buying savings account.

Notes:

The Do's and Don'ts for Preparing for Homeownership:

The Do's

1. Continue paying your rent on time and abiding by your lease.
2. Make sure that your income and number of household members reported to housing is accurate.
3. Attend a first time homebuyer workshop.
4. Work on increasing and maintaining your income.
5. Make all of your credit card/loan payments on time.
6. Reduce debt.
7. Address any credit challenges you have or have had in the past.
8. Pull your credit report, check for accuracy and correct any errors. Meet with a financial counselor if needed.
9. Begin or continue saving money for your home purchase.
10. Refer to the OHA Section 8 Homeownership Program booklet to help you plan for your purchase.

The Don'ts

1. Don't take on new loans.
2. Don't overspend your budget.
3. Don't max out your credit cards.
4. Don't deplete your savings.
5. Don't pay any bills late.
